OBJECTIVE

Experienced Software Engineer with a strong Python, JavaScript, and TypeScript background. Skilled in debugging, scalable web development, and applying machine learning concepts in professional and personal projects. Seeking challenging roles where I can contribute to data-driven applications and AI-powered solutions.

SKILLS

Programming	JavaScript, TypeScript, Python, Java
Frameworks	Node.js, React.js, Next.js, Spring Boot, Tailwind CSS
ML / Data Science	pandas, NumPy, scikit-learn, TensorFlow, data pipelines
Debugging	Strong debugging techniques, root cause analysis, optimization
Cloud Platforms	AWS, Azure
Databases	PostgreSQL, MySQL, MongoDB
Version Control	Git
Soft Skills	Communication, Problem-solving, Time Management
Remote Work	Virtual Collaboration, Self-Motivation, Time Zone Management

EXPERIENCE

Founding Software Engineer PickUp (Remote)	Jun 2023 - Present
--	--------------------

- Developing, testing, and maintaining software applications using cutting-edge technologies
- Participating in code reviews and contributing to best practices for software development
- Identifying and resolving performance bottlenecks and bugs to ensure optimal software performance

Advanced AI Data Trainer Invisible (Remote)	Apr 2024 - Dec 2024 <i>US, San Francisco, California</i>
---	---

- Formulated complex prompts for AI models and document completion errors to engineers, leading to a notable 20% reduction in errors within the process.
- Drafted ideal responses to facilitate the models' Reinforcement Learning process.

Lead Developer ADMINATETE (Remote)	Aug 2023 - Mar 2024 <i>Belgium, Brussels</i>
--	---

- Developed a robust administrative assistant web platform, streamlining office operations for clients.
- Improved team productivity by 70% through effective leadership and mentorship of junior developers.
- Led the adoption of new technologies and methodologies, resulting in enhanced project outcomes and client satisfaction.

Software Engineer Irembo	Apr 2024 - Jul 2024 <i>Kigali, Rwanda</i>
------------------------------------	--

- Added new services:
 - Issuance of recommendation letter for Visa / Permit
 - Request for tax Exemption of personal belongings of Rwandans returning back home from abroad
 - Issuance of recommendation letter for Diplomatic & Service E-Passports

Software Engineering Trainee
ALX Africa (Hybrid)

Jan 2023 - Sep 2023
Kigali, Rwanda

- Developed and launched the "Give Hope" web application, facilitating donations and charitable contributions.
- Utilized a wide range of technologies including HTML, CSS, JavaScript, Typescript, Node.js, React.js, MySQL, and PostgreSQL.
- Engaged in collaborative design, development, and testing phases for the full-stack web application.

Software Engineering Trainee
Andela (Remote)

October 2021 - July 2022
Remote

- Achieved successful launch and implementation of an e-commerce platform using React, Node.js, and PostgreSQL.
- Acquired proficiency in HTML, CSS, JavaScript, Typescript, Node.js, React.js, MySQL, and PostgreSQL.
- Collaborated on a group project to build a full-stack web application.

Software Engineering Trainee
klab Rwanda (Physical)

Jun 2022 - Sep 2022
Kigali, Rwanda

- Participated in a comprehensive training program focused on software development and collaborative learning.
- Developed practical skills in HTML, CSS, JavaScript, Typescript, Node.js, React.js, MySQL, and PostgreSQL.
- Contributed to team projects, including developing and launching a web application for collaborative learning.

Full-Stack Developer
Imena Softek Ltd (Hybrid)

June 2020 - October 2021
Kigali, Rwanda

- Revamped a government platform to handle 5M/month user traffic, improving speed and efficiency.
- Managed server and database administration, ensuring user privacy and PII protection.

PROJECTS

PickUp Rwanda: Smart Public Transport & Ride Booking Platform. Contributed to the development of a real-time digital public transport system in Rwanda. Features include seat reservation, live bus tracking, and interactive route search. Aimed at transforming urban mobility across Kigali. ([Link](#))

Ssein Cargo Transport Cargo and Logistics. Developed an International Freight Forwarding system with Air, Sea, Land, and Rail Freight capabilities. Implemented automated booking, real-time vehicle tracking, and cost-efficient logistics solutions. ([Link](#))

EasyDeliver: Simplify Your Deliveries with Just a Tap. Created a delivery app facilitating quick and seamless order deliveries. Streamlined the delivery process for enhanced customer experience. ([Link](#))

Ssein Spare Parts: Your One-Stop Shop for Toyota Original Spare Parts. Established an online platform offering extensive Toyota original spare parts inventory. Improved accessibility and ease of finding quality spare parts. ([Link](#))

Ssein Santé: Agence de Placement en Santé. Contributed to the development of a health placement agency, focusing on nursing career opportunities. Enhanced career advancement options for healthcare professionals. ([Link](#))

ADMINATETE: Administrative Assistant Platform. Engineered a comprehensive web platform that streamlines administrative tasks for businesses. Implemented features for document management, appointment scheduling, and client communication. ([Link](#))

CERTIFICATES

Andela Technical Leadership Program - Andela, Issued Jan 2022, Expired Dec 2023
([Show Credential](#))

ALX Certificate of Completion - ALX Africa
([Show Credential](#))

Tech Upskills Completion Certificate - kLab.rw

[\(Show Credential\)](#)

CODEXTREME 2024 - CodeXtreme, Issued Feb 2024

[\(Show Credential\)](#)

Responsive Web Design - freeCodeCamp, Issued Apr 2022

[\(Show Credential\)](#)

Scientific Computing with Python - freeCodeCamp, Issued Apr 2022

[\(Show Credential\)](#)

Certificate of Completion for MCF Scholars ICT Bootcamp - Carnegie Mellon University Africa, Issued Apr 2022, Expired Jun 2022

[\(Show Credential\)](#)
